Introduction To Python

Monday 18.00-20.00

Instructor(s)

- Rojen Arda Şeşen
  https://github.com/rojenarda

- Tufan Kaan İsli

- Ömer Faruk Demir

About The Course

The course will take 6 weeks. There will be problem-solving sessions after the class each week where you can ask questions about the previous problem sets and solve examples about the current week's topic.

Three problem sets and one programming contest will be assigned in total. The assignments are optional but highly recommended.

Date	Topic	Assignment
21.10.2024	Introduction	-
31.10.2024	Primitive Data Types + Control Flow	Problem set 1
04.11.2024	Containers, Iterators and Generators	Problem set 2
11.11.2024	Functions + File I/O	Contest
25.11.2024	Object Oriented Programming	Problem set 3
04.12.2024	Wrap-up	-
